PART NO.: LD-T8-HB2N FOR THE 4 BULB FIXTURE

Product Description-LED Ready T8 High Bay Fixture

Fully assembled kit comes with the LED tubes, non-shunted tombstones, conduit, mounting chains and wire guard.

Shallow depth allows fixture placement near ceiling for maximum space utilization. Fixture can be surface mounted. Designed for pendant or chain mounting, adjustable cable

Die formed of 22 gauge galvanized steel, rigidly fabricated - Louver Aperture on top of housing for heat dissipation

Heavy duty stock wire guard shielding same as doorframe

Choice of MIR04 95% or 86% reflectors

Pre-treated with iron -phosphate for maximum paint adhesion & rust resistance

High gloss baked white enamel paint used after fabrication

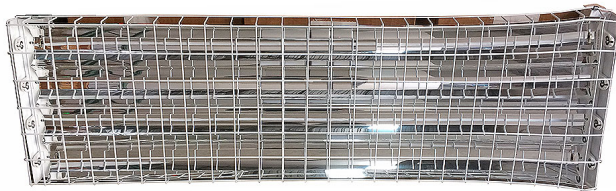

Mainly used for indoor lighting for offices, medical clinics, schools, hallways, restaurants, etc.

Application

Mainly used for indoor lighting of grocery stores, warehouses, fabrication facilities, assembly plants, etc.

FRONT WITH WIRE GUARD
