## ROUND ULTRA SLIM LED PANEL LIGHT

LM79

LM80

### Introduction:

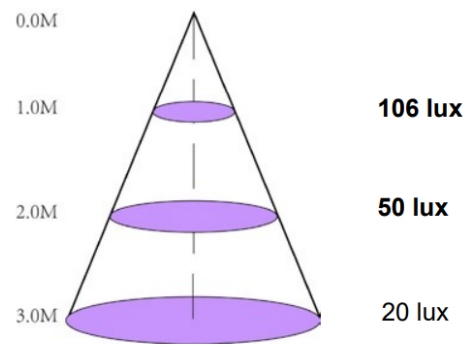

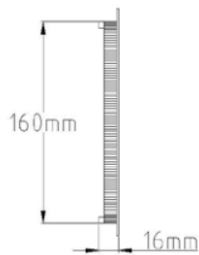

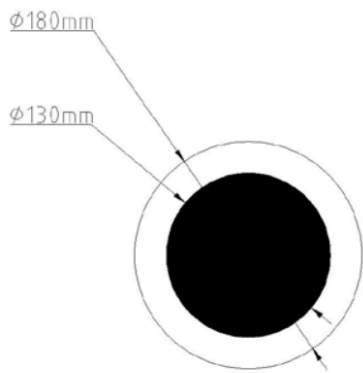

- DVDLights' Ultra Slim LED panels are available in 3 sizes (6", 8", 10") in diameter.
- Fabricated with thin, sizable, optical acrylic sheets with high output tier one led embedded along the edge of the LED Light Panels and an engraved light distribution matrix across the back of the panel.
- This light distribution grid pattern is optimized for each specific panel size to ensure uniform, bright illumination over the face of the panel, offering a 150-degree beam angle.
- Environmentally friendly, you can count on NO UV & IR emission, no mercury or other hazardous materials.
- Panels use minimal power consumption, offer a long lifespan, and bright, even light.
- Try our slim, lightweight, easy-install LED panels instead of traditional fluorescent backlight systems.

### Suitable Applications:

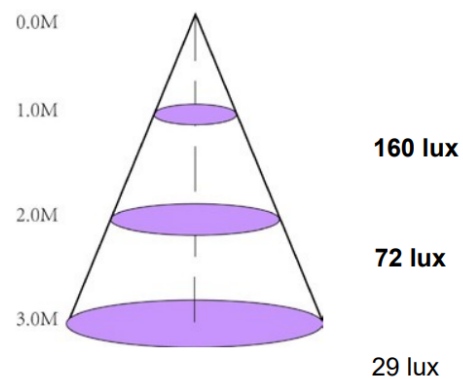

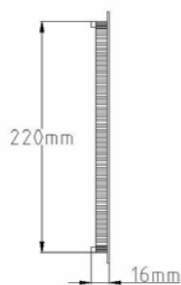

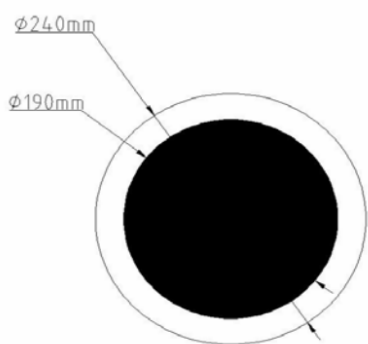

- Office, Hotels
- Restaurants
- Schools
- Meeting Rooms
- Hallways & Lobbies
- Subway Stations
- Indoor Use only
